

Option 1: Executive Search

Our executive search allows us to ensure that we find the right person without any compromise. It is a more sophisticated process than a standard search and gives you access to more candidates on an exclusive basis. It is an uncompromising full search, and you will get a much better quality of hire.

- Regular contingent recruitment no win: no fee structure
- 97.3% success rate (candidate remains in business for >12 months) over the last five years
- If we place someone in a permanent position and the unlikely event they leave within the first 100 days, and we are not able to re-fill the role, we refund the client 100% of the finder's fee
- Only the Talent Acquisition Manager will be working on Executive Search Assignments
- All candidates will be interviewed by video or face to face
- Clients will have exclusive access to our highest-value candidates on our database
- We will reach out to candidates not actively job hunting. Real game-changers aren't searching for work, they need to be headhunted.
- Candidates whom we shortlist will be emailed along with their solo interview and CV on one easy portal for the client to review
- We offer a personal approach by visiting your premises and getting to know you and your teams.
- You will be guaranteed our highest level of service
